

## 5.2 Spector 360

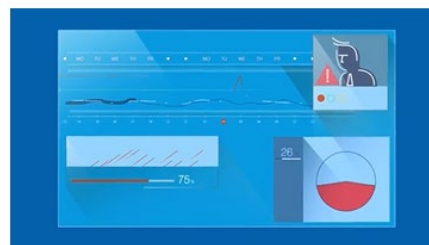

### Veriato 360 Overview

Veriato 360 provides unmatched visibility in the online and communications activity of employees and contractors. Veriato 360 is the system of record, presenting detailed, accurate, and actionable data for use in incident response, high-risk insider monitoring, and productivity reporting.

### Veriato Investigator Overview

Veriato Investigator automatically records all computer activity, creating a record that can be used as evidence in civil and criminal litigation. Veriato Investigator's invisible agent can be remotely deployed to your Windows and Mac clients silently.

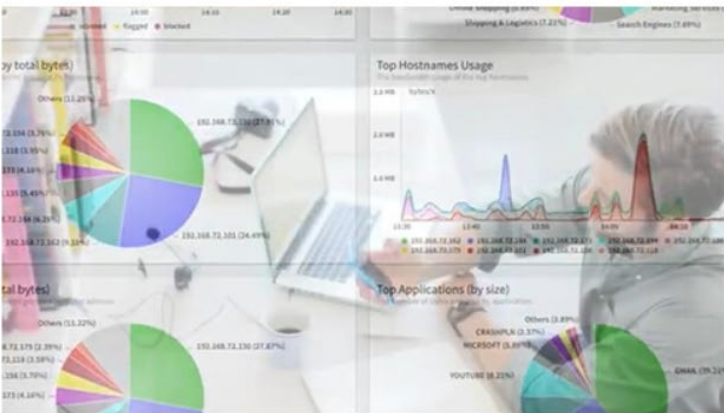

### Veriato Recon

Veriato Recon analyzes insider behavior, detects anomalies, and alerts when behavioral shifts suggest insider threat. The software uses advanced machine learning algorithms to deliver actionable alerts.
